

**Tim Sandage**

Tim Sandage is a senior security partner strategist for Amazon Web Services (AWS), where he is responsible for global strategic alignment of AWS cloud computing services with current and future compliance capabilities as well as external consulting with AWS customers, public policy organizations, and standard bodies across the globe. Tim is an active public speaker on secure cloud adoption at both internal and external workshops, conferences, and hands-on labs (boot camps) and a community advocate for organization using and promoting cloud technologies. Previously, Tim worked as a consultant supporting secure adoption of cloud services across multiple cloud services providers, such as Microsoft, Google, Salesforce, and HP. Tim's work included the development of secure cloud computing practices, risk assessments, and secure/complaint cloud computing adoption. Tim has an extensive US federal government security background with over 25 years of service in the US Air Force running regional classified and unclassified military networks. Tim holds multiple certifications, including Certified Information Systems Security Professional (CISSP), Certified in Risk and Information Systems Control (CRISC), and Certificate of Cloud Security Knowledge (CCSK).
