

# Mark W. Bortle , USCG Chief Enterprise Architect

---

Mark Bortle is an Air Force Veteran and IT Professional with over 37 years of industry IT experience spanning the Military, federal and commercial market. He has worked for companies such as Booz Allen Hamilton, Accenture, EMC(Dell), and VMware. He holds a Master's of Science degree in Information Systems Management and post-masters executive certifications from Notre Dame, Mendoza College of Business, in Effective Leadership, Leadership and Management, Leading Teams and Organizations and Executive Leadership Strategies.

Mr. Bortle is a blackbelt certified enterprise architect and P/PM Level II certified project/program manager.

Mr. Bortle is currently the USCG Chief Enterprise Architect and is responsible for managing the Coast Guards Enterprise Architecture Program. Mr. Bortle frequently engages with senior leaders and stakeholders throughout the Coast Guard, DHS, DoD and the military services on architecture topics. Mr. Bortle is in the process of modernizing the enterprise architecture discipline, practice and purpose for the Coast Guard to support value, impact and decision-making. He chairs the Enterprise Architecture Board and is a member of the Data Governance Board and Data Governance Committee for the Coast Guard. Mr. Bortle was also the Acting Chief Data Officer for the USCG and transitioned that role to the current USCG CDO.

Throughout his career, he performed hands-on tasks, collaborated and informed senior stakeholders, governance bodies, vendors, and business partners to implement customer-focused solutions. Additionally, he has delivered strategic and tactical business-centric solutions based on skills, experience, and multi-industry knowledge in:

- ✓ Project Management
- ✓ Program Management
- ✓ Risk Management
- ✓ Contract Management
- ✓ IT Service Management
- ✓ Business Continuity
- ✓ Enterprise Architecture
- ✓ IT Capacity and Performance
- ✓ Big Data Strategy
- ✓ Cloud Services
- ✓ Disaster Recovery
- ✓ Data Center Consolidation
- ✓ IT Operations
- ✓ Cyber Security

He lives in Fredericksburg, Virginia, with his wife, Lourdes and family, and has worked in the greater Washington D. C. area for over 30 years.
