

Ben Prime spent over a decade as a Certified Ethical Hacker (CEH), penetration tester, compliance auditor, Cyber Security Analyst, Technical Account Manager, and cyber regulations contributing author (NRC RG 5.71). He spent most of this time, as a contractor, across multiple major government programs such as SPAWAR, CDM, RMF, AKO, ACAS and HBSS. In the most recent decade, his primary focus has been supporting the Federal Government in their cyber journey, architecture and transformation, across the mission and enterprise.
