

AMANDA J. VILLWOCK

Director, IT Portfolio Management
DoD CIO – Information Enterprise

Ms. Amanda J. Villwock is a civil servant and serves as the Director, Information Technology Portfolio Management directorate in the Office of DoD Chief Information Officer for Information Enterprise. In this role, she leads the strategic modernization and enablement of the Departments implementation of data-driven enterprise architectures ensuring at the highest levels within the Departments leadership have access to make data driven investment decisions for DoD business operations. She ensures continuous partnerships across business functions are aligned to digital modernization initiatives and objectives through strategy, governance, performance management, resource management, and stakeholder involvement using best practices.

Prior to this, Ms. Villwock served as the Information Technology Reform lead responsible for the implementation and execution of IT reform initiatives for the Department. Working with over 30 different DoD organizations, having identified financial, technical, and operational benefits and impacts for implementing an enterprise approach to IT Reform established initiatives that included minimizing duplication of IT resources through the consolidation of common IT functions across the DoD.

In her previous experience, Ms. Villwock was the Cyber Analytics Chief at the Defense Information Systems Agency leading critical, complex, and cross-cutting cyber and analytical initiatives enhancing the defensive cyber operations of the DoD infrastructure by creating data standards, creating enterprise security tools and content for consumption, and reducing cyber footprint for our adversaries. She was critical in establishing defense email security capabilities to the cloud that accurately detect and remediate advancing targeting, spear-phishing attacks, minimizing the risk of costly breaches to the department.

Ms. Villwock holds a Bachelors in Communications, Public Relations from Valdosta State University and is a Graduate of the Federal Executive Institute.
